Claims 16 and 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 16 is confusing because the preceding claims don't have an antecedent basis for "the other polyether glycol".

Claim 23 is confusing because it refers to the process of claim 17, but claim 17 is directed to a polyurethane, not a process.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 25 is rejected under 35 U.S.C. 102(b) as being anticipated by Slagel.

Slagel discloses a process for making a polyurethane/urea from a diisocyanate terminated polyether prepolymer reacted with a diamine at an NH_2/NCO ratio of 0.8-1/1 (see bottom col. 3 – top col. 4).
